## APPLICATIONS

OTHER ENGINE PARTS

### "IEV"

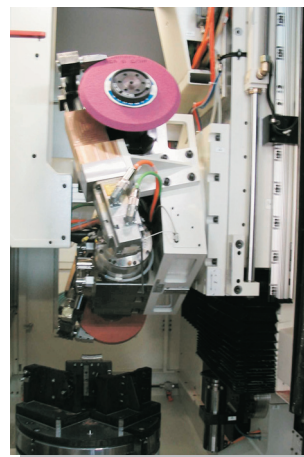

High precision flexible vertical grinding center for a wide range of aerospace components, such as nozzles, ballscrews, landing gear flaps, and so on. Natural granite portal. Precision linear slides with linear motors and high torque built-in motors. The machine can be fitted with automatic pallet change system and automatic tool changer.

## TECHNICAL CHARACTERISTICS

### IEV

Max. Diameter to be ground (mm (in))	800 (31.50")
Max. Height to be ground (mm (in))	800 (31.50")
No. of spindles in "B" axis	4
Max. Table load (kg( lb))	1.000 (2,204.62)
