

APPLICATIONS

FLANGES

MACHINING CENTRE PDV 50/5000

Equipped with 2 vertical heads suitable for machining large flanges

Options:

- +/- 3° automatic inclination
- Self-centring clamping

TECHNICAL CHARACTERISTICS

Y stroke according to the range of diameter of the part

Z stroke (mm): 600

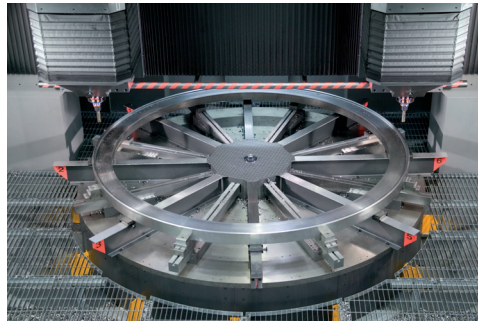

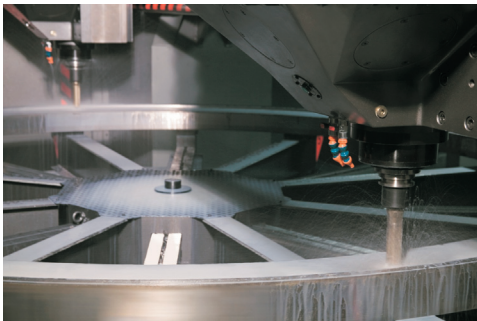

Maximal diameter suitable for up to 8 m

Power main spindle (kW): 30

Torque main spindle (Nm): 250

Maxi speed (r.p.m): 5.000

Diameter of rotary plate according to the maximal diameter of the part
